1 Messaging

This page allows an admin user to send messages across the system, to a specific group or a specific user.

System Message [Permanent]

Set Remove

Group Message [One-Off]

Group:

All Groups

▼

Test Message For Everyone

Send

User Message [One-Off]

User:

All Users

▼

Send

Note: The message will only be received when the recipient performs an action which returns data to the server e.g. performs an update, search or selects a menu item. The message will be displayed using the browsers standard dialog box, e.g.:

localhost:8080 says

Test Message For Everyone

OK
