# 1 Stock Enquiry

This page allows the user to look at the physical stock available in the warehouse. The page will initially display a parameter page:

| Parameters | |
|---|---|
| Owner | SPE : SPE OWNER ▾ |
| Show Stock By | Batch id ▾ |
| Stock Code | |
| Location      From | To |
| Batch id      From | To |
| Customer Rotation   From | To |

**Clear**

**Find**

The user may optionally enter a Stock Code and ranges for Location, Batch and Customer Batch for selection. The 'Show Stock By' drop-down will determine the sub-level detail displayed once a stock code has been selected. The values will be 'Location' or 'Rotation' (or 'Batch'). Once the user clicks the 'Find' button, a warehouse level detail will be displayed:

| Warehouse Details | | | | | | | |
|---|---|---|---|---|---|---|---|
| Warehouse Id | Description | Weight | On-Hand Qty | Committed Qty | Allocated Qty | Held Qty | Free Qty |
| NFT | Default Warehouse Name | 51.667 | 52 / 1 | 0 / 0 | 0 / 0 | 2 / 1 | 50 / 0 |
| SPE | SPE Warehouse | 547732.69 | 100423105 / 2987 | 70 / 0 | 37904 / 162 | 37744 / 1 | 100347387 / 2824 |
| | Totals | 547784.357 | 100423157 / 2988 | 70 / 0 | 37904 / 162 | 37746 / 2 | 100347437 / 2824 |

**Export**    **Show Qty**    **Back**

If the selection appears in multiple warehouses (as shown above) then there will be one detail line per

warehouse. Selecting a warehouse line will drill-down into a stock level detail for that warehouse:
