- (Move all available to selected)
- ◀◀ (Move all selected to available)

Move Buttons:

- ^ (Move up)
- ▼ (Move down)
- ^ (Move to top)
- ▼ (Move to bottom)

Save **Back to Settings**

To return to the *Run Settings* screen, click **Back to Settings**.

You can search for screens in either panel by entering text in the associated *Find* boxes - matching screens will be bubbled to the top of the list.

To select the screens to be displayed in this run, select the screen on the left pane and click the button to move the screen to the Selected Pane. You can select multiple screens at a time by holding the CTRL key, or a range of screens by holding the SHIFT key whilst clicking.

The buttons to move between **Available** and **Selected** are, from top to bottom:

- -> Move the indicated Available screen(s) to the Selected screens pane.
- -< Remove the indicated Selected screen(s) from the Selected screens pane.
- >> Move all the Available screens to the Selected screens pane.
- << Remove all the Selected screens from the Selected screens pane.

When selected, the sequence of the screens can be changed using the buttons:

- ^^ Move to top
- ^ Move up
- v Move down
- vv Move to bottom

Once you have selected all the screens to be displayed in the run, click **Save** to save the settings.
