1 Template:Category

See [talk page](#) for some logics behind this implementation.

Do not transclude this in PD help pages (Help namespace), since it seem to break the PD help guidelines, in that, this template name is too generic to be used in a fresh wiki installation. For PD help pages, use [Template:Help/Category](#) instead.

1.1 Example

See [Template:Help/Category#Example](#)

[[Category:{{1}}/Category|Category]]
