# 1 COMMDISP Contents of Common

To call the screen - Select Help / Display Common from the toolbar.

The screenshot shows a window titled "Contents of Common". At the top, it displays "Company: JP1" and "Department: 0000" on the left, and "23-APR-2010" and "COMMDISP v1.1" on the right. Below this is a tabbed interface with four tabs: "Company", "User Details", "Accounting", and "Warehouse". The "Company" tab is selected. Inside the tab, there are several input fields: "Company Code:" with the value "JP1", "Common Id:" with the value "2061345", "Company Name:" with the value "New Test Company", "Current Period:" (empty), and "Current Year:" (empty).

When you change company (using HYFX0040), you can use this to ensure that the company has actually changed. If not, set the new company as the default in the User Maintenance screen and log out and back in again to re-set the company.

Here you can also view

User Details

The screenshot shows the same "Contents of Common" window, but now the "User Details" tab is selected. The top bar still shows "Company: JP1" and "Department: 0000" on the left, and "16-JUN-2025" and "COMMDISP v1.1" on the right. The "User Details" tab contains a form with the following fields: "User:" with value "SCE", "User Level:" with value "9", "Language:" with value "ENG", "System Id:" with value "XXX", "Department:" with value "0000", "Use Defaults:" (empty), "Email:" with value "paul.roscoe@aptean.com", "User Class:" with value "SCEDEV", "User Pid:" with value "20815667", "Login Id:" with value "SCE", "Menu Method:" with value "E", and "Branch Code:" with value "0000". At the bottom of the window, there is a status bar that says "Record: 1/1" and "<OSC>".
