7 WHS7900 RDT Messages

This is the RDT Messages Screen. This can be used to determine any errors during the processing of tasks through the WCS.

The screenshot shows the 'RDT Messages' window. At the top, it displays 'Owner: ROB Warehouse: NFT', the date '10-JUN-2025', and 'WHS7900 v1.0'. Below this is a search area with three fields: 'Mess Type:' (a text input), 'Error Type:' (a dropdown menu), and 'From Date:' (a text input). The main area is a table with three columns: 'Date', 'Text', and 'Type'. The table contains 15 rows of data, all dated '29-NOV-2017'. The 'Text' column contains various messages, including 'JP1NFTEEC001902179A', 'Pass2902179', 'Sending...1622017112908370300000000 EEC902179 PAINT YOUR OWN CASTLE ID', 'JP1NFTEEC001902179A59021799', 'Pass1902179', 'Sending...1622017112908370400000000 EEC902179 PAINT YOUR OWN CASTLE ID', 'JP1NFTEEC001902179A59021799', 'Pass1902179', 'Sending...1622017112908370400000000 EEC902179 PAINT YOUR OWN CASTLE ID', 'START - RECVD_WCS_LOCENQAS', 'Received record type 711', 'Sending record type 161', and 'ENDED - RECVD_WCS_LOCENQ RC=0'. The 'Type' column for all rows contains the letter 'D'. At the bottom left of the window is a 'Cleardown' button.

Date	Text	Type
29-NOV-2017	JP1NFTEEC001902179A	D

You can find data by entering a message type (a lookup is provided), an error type (from a drop-down list) and a date from. The screen will then display all of the messages.

You can also clear the historical messages on this screen using the **Cleardown** button provided.
