This is the Standing Data Copy Screen (DAT0001).

The following fields document the parameters for copying standing data:

Field Name	Description
Owner	The identifier for the owner of the data being copied. (Required Entry)
Warehouse Id	The unique identifier for the warehouse associated with the data being copied. (Required Entry)
Owner	A Yes/No option to include or exclude Owner data in the copy process.
Warehouse / Location	A Yes/No option to include or exclude Warehouse/Location data in the copy process.
Supplier	A Yes/No option to include or exclude Supplier data in the copy process.
Customer	A Yes/No option to include or exclude Customer data in the copy process.
Stock	A Yes/No option to include or exclude Stock data in the copy process.
Log File Required Action Buttons:	A Yes/No option to specify whether a log file should be generated for the copy operation.

• OK: Executes the standing data copy operation based on the selected parameters.
