Details

Record: 1/7 <OSC> 14/30

The following fields document the enquiry parameters:

Field Name	Description
Owner	The identifier for the owner of the stock or order. (Required Entry)
Warehouse Id	The unique identifier of the warehouse location.
Haulier	The identifier for the transport company responsible for the delivery.
Booking Date	The specific date the delivery was booked for.
Delivery Mode	The method or mode of transport used for the delivery (dropdown selection).

The enquiry results are displayed in a grid with the following columns:

Field Name	Description
Order No / Product Type	The combined order number and product type code.
Status	A numerical code indicating the current status of the order.
Book Date	The date the order was booked into the system.
Type	The classification or type of order.
Customer	The code or identifier for the customer.
W/H	The short code or identifier for the warehouse associated with the stock.
Quantity Allocated	The amount of stock reserved for the order.

Action Buttons:

- **Details:** Likely opens a separate screen to view detailed information about the selected order row.
