# 1 FXMUSER

User records are setup in **FXMUSER** (Maintenance User Maint WMS Admin

The screenshot shows the 'Users' window in FXMUSER v4.21. The user 'APTEAN' is selected. The window displays various fields for user information, including Username, Full Name, E-Mail Address, User Class, Language, Password, and Confirm Password. It also includes checkboxes for 'Delete Flag', 'Menu Method', 'Security Level', 'Disable Access to Costing Information', 'Enable POD Scanning Functionality', and 'Reporting restricted to user's current depot'. A table at the bottom shows the user's company and branch details.

Company Code	Branch Code	Default
APT	Aptean	Yes

Users)

The key items that determine the level of access that a user has are:

## User Class -

This determines the menus that a user can see when they log into WMS

The screenshot shows the 'Classes Lookup' window. It contains a search bar with 'Find %' and a list of user classes. The first class, 'DMOPS', is highlighted. The list includes: DMOPS (Demo User Operational), HN\_ADMIN (Administration), HN\_OPS (Operation Menu), OBS\_WHS (Sample Menu), ORA\_FORMS (Oracle Forms Menus), PLANNING (TMS Planning), and WST\_WHS (Super User Class). Buttons for 'Find', 'OK', and 'Cancel' are at the bottom.

## Security Level -

Each screen and submenu is graded with a security level. Users can only see the screens and submenus that are at or below their assigned level. The level can be set at 1 through to 9

The screenshot shows the 'Security Level' settings section. It includes a 'Delete Flag' checkbox, a 'Menu Method' dropdown set to 'Explorer', a 'Security Level' dropdown set to '9', and 'Password' and 'Confirm Password' fields.

**Company Details** (highlight line and press Details)

Company Code	Branch Code	Default
MOR	Moran Logistics Ltd.	001
		Moran
		Yes
