1.1 Warehouse Order Enquiry Screen.....1

1 Order Enquiries

1.1 Warehouse Order Enquiry Screen

This is the Multi-Warehouse Order Enquiry screen.

The screen allows you to select orders with a range of criteria from a *Selection* tab.

The **Search** button will show the results, an a **Refresh** button is provided to allow you to refresh after some time has passed, to pick up the latest information.

This screen has a breakdown of the current 'Active' orders on the right hand side matching the criteria entered.

The *Details* tab shows a list of all orders matching the criteria entered on the *Selection* tab. You can see more information on this tab by scrolling the table horizontally.

You can drill down into details of the order selected using the **Order Enquiry** button. This will take you to the Enquiry by Order Number screen [ENQSOON01A](#).

You can configure the columns on this table using the **Configure** button provided.

[illegible]

This screen allows you to specify which fields should be displayed, their sequence and the width that will be displayed in the Stock Location Enquiry form, giving a more user friendly look.

The screen will show all configurable elements for the screen being configured. For example, if this is configuring the columns shown on results from **WHS0917**, this will be shown in the program ID on the top right.

The screen consists of two tables:

- Shown columns
- Available but not shown columns.

The arrow buttons allow you to select which fields you require and then to sequence the fields within the display. It is then possible if required to enter into the Width field and set the length of individual fields to save on the displayed space.

When finished, save your configuration and close the screen.

1.1.2 Order Status Report

⚠ Warning: This is an incomplete guide.

The screenshot shows the 'Order Status Report' window in the Calidus (3PL) v810.020.13 application. The window has a menu bar with 'Action', 'Edit', 'Query', 'Block', 'Record', 'Field', 'Window', and 'Help'. Below the menu is a toolbar with various icons. The main area contains the following fields and controls:

- Company: JP1 Department: 0000 28-MAR-2017 SOS1170 v4.6
- Owner: D1P 001
- Number/Ref: Number (dropdown)
- Choose by: Order Number (dropdown)
- Start Order No: ALL
- End Order No: ALL
- Route: (empty field)
- Order Status: (empty field)
- Summary (selected radio button) Detail (radio button)
- Only Show orders where Despatch Note is printed? All (selected radio button) No (radio button) Yes (radio button)
- Report (button)

1.1.3 Unconfirmed Pick Pages Report

This is the Unconfirmed Pick Pages Report (WHS1709) screen.

The screenshot shows the 'Unconfirmed Pick Pages Report' window in the CALIDUS WMS v810.46 application. The window has a menu bar with 'Action', 'Edit', 'Query', 'Block', 'Record', 'Field', 'Window', and 'Help'. Below the menu is a toolbar with various icons. The main area contains the following fields and controls:

- Owner: POD Warehouse: DE2 17-JUL-2025 WHS1709 v4.2
- Owner From: POD 001
- Owner To: POD 001
- Report (button)

At the bottom of the window, there is a status bar that says 'Record: 1/1'.

Generating an Unconfirmed Pick Pages Report:

The screen displays the following input fields:

- *Owner From/To*: Input fields for entering a range of owner codes. An LOV is provided.

There is also a button:

- **Report**

When details are entered, click the **Report** button, which will start Unconfirmed Pick Pages Report generation. If this is a report, this will ask you how you would like to print the report through the standard screen. More details on this process can be found in the guide [Printing From the WMS](#).
