1 PFS0040

 **Warning:** This is an incomplete guide.

This is the Points/Towns maintenance screen. This allows you to enter and maintain points within the network.

You can find data by entering the country and point code. When found, the details of the address are displayed.

On the address tab you can enter all of the address details, timezone, pools, contact details, payment information, and more..

You can also access:

- **Notepad Ports**
- **Port Tariffs**
- **Det Dem Logic**

There are various tabs for the details of the point.

1.1 Operations

You can maintain operational working hours here.
