1 R770-WMS P072 080909

- Modules Delivered (P072)
- New Screens (P072)

Log Number	Client Ref	Issue Raised and Test Objective	Site	Functional Area	ER Number
267849	EARS00027287468	Pick List reprint exit is slow - Modifications made to pick list reprint screen to speed up the final updates, making the screen exit back to the menu faster.	HM Prisons	Orders - Pack list	N/a
268104	DHL/EXEL	CIM Inbound Processing Investigation - SQL code to define keys and index on edi tables used in the CIM inbound process to improve the time taken to import the CIM data to Unison.	Consumer - Hinckley (BHS)	EDI - Inbound	N/a
267851	Westex	layout issue - Amend the inbound syspro sales orders file handling, in regards to the W66 segment, to ensure that the system can handle the scenario where the customer code is not the last element in the segment. Check for an end of field marker as well as end of line marker.	Bliss	u/a	N/a
266118	EP-7SWKV8	Add logo, footer and sales text book onto the ITG Pack list - New program image maintenance and changes to ITG pack list.	Ireland - Oak Rd (ITG)	u/a	ER71-01
268121	EARS00027345792	Streamline GRN cancellation - Ordered qty is reset when a GRN is cancelled.	HM Prisons	GRN - Advice	N/a
268228	DHL/EXEL	Show App Server in lock monitor - Show the users application server connection as well as database connection in the Lock Monitor screen.	HM Prisons	Setup	ER71-02
268139	NFT	Problems despatch confirming - Stop problems with despatch conf by ensuring marshalling locations is populated.	Midlands	Orders - Desp conf	N/a
266690	Internal	Error on ENSOON01A v4.9 - Changes to improve speed of enquiry by order number. Improvements to screen layout and navigation. Allow last digits of order number to be entered and system will fill in zeros when return is pressed. Automatically execute query when order number has been entered, if only 1 product type on order. If more than one product type then a lookup will be displayed.	u/a	u/a	N/a
266959	MC-7TGFN4	Turn on WMS automatic suggestion of locations - Amend the putaway algo U, so if rules FPAL and MAFL are set, the suggested location will always be the last location used or for new stock, the buildup locn 3 (Q/A). Also, if the above rules are set, and the RIAR rule is populated, if the user puts the stock away in a non palletised location, the pallet will automatically be stripped of its pallet details.	Consumer - Hinckley (BHS)	GRN - Putaway	ER71-04
268038	Internal	770 Stock Analysis - ordered by quantity - New enquiry screen - lists most ordered products for a given date range for the current warehouse / owner combination.	u/a	u/a	N/a
268377	Internal	Stock Movements - Non-Palletised Stock - Added MPFR rule to movements screen. Setting it to P will allow the form to prompt for pallet id first.	u/a	u/a	ER71-03
263950	Westex	Label - House Of Fraser - 2 new owner message text records need to entered for owner AE1 'Euroitalia srl' ASI (asnSupplierId) will be set to ?5679818? (HOF?s supplier code for Euroitalia srl) and NDC (National Distribut Centre) will be set to ?1600? All HOF customers will need to have the EDI	Bliss	EDI - Outbound	ER71-09

Log Number	Client Ref	Issue Raised and Test Objective	Site	Functional Area	ER Number
		Indicator populated with the value 'HOF', else the outbound HOF EDI flow will not run AND the packing label format will have to be set to 'HOF' or the HOF label will not be run. Add a new HOF format packing label, which will be processed the same way as the DHL label (ftp'ed to PC to be printed) and a new outbound HOF format XML flow.			
268485	Westex	Standard reports not displaying data - Amended EDI sales order upload to correctly populate the customer code field on the order well record. Amended the report, adding free type address to the query, so the order's post code displayed is got from the free type address, if possible, and is only got from the customer's address, if no FTA record exists.	Aspect	Orders - Reports	N/a
268595	Westex	Store unit price as an integer - The inbound EDI sales order transient table has been amended to ensure that the odt_price received as part of the B2C inbound EDI file can handle decimal values.	Bliss	EDI - Inbound	ER71-06
266960	MC-7TDF3X	Unison Pack Screen Changes - A new field Detail Packing Format has been added to the Pack Parameter Setup - this needs to be set to OBS. A new owner level rule PBOX (Print By Box) will need to be setup with a value Y When set, the user will close the pack list when all packs are closed. CIPD messages will be generated at box level rather than pack list level and a new report WHR1946_Aptean will be run.	Consumer - Hinckley (BHS)	N/a	ER71-05
268687	EARS00027459671	Test pickwave needs splitting - Amend allocation so that should an order be split over 2 orders, allocation updates it correctly, setting the allocated records to status 4(allocated), despite the fact that part of the order may still be at status 1 (committed).	Consumer - Hinckley (BHS)	Orders - Allocation	ER71-07
268698	Westex	Picklisting errors - For Aspect EDI, if order priority set to ' ' (a space) default it to 0."	Aspect	Orders - Pack list	N/a
268588	EARS00027440229	Medical numbers order error - If an incorrect serial number is entered, it is possible to exit the screen and save other entries rather than losing all existing info.	Healthcare - Clinical Trials	Orders - Entry	N/a
268717	DHL/EXEL	Driver ticket print - Driver ticket reprint report for the new stock moves screen.	u/a	Stock - Movements	ER71-08
268712	DHL/EXEL	Pick list not selecting records - Ensure report still runs successfully for orders split over multiple pick waves. Ensure PBOX functionality works even when streamlined packing is enabled."	Consumer - Hinckley (BHS)	Orders - Pack list	ER71-10
268738	Westex	Pick list printing 1 order line per page - The pick list was only printing one stock line per page, this has been corrected.	Bliss	Orders - Pack list	ER71-11
268749	EARS00027470852	Split packing not working - Ensure that if 2 users generate CIPD messages, the printer data is got from the user's default printer setups rather than the pack header - so the messages correctly display the printer. Also ensure that the pack level data is displayed in the CIPD message, even if the user has not pressed save.	Consumer - Hinckley (BHS)	EDI - Outbound	ER71-12
268808	EARS00027485225	Unable to produce pack/despatch labels - Amended form to ensure that the EDI CIPD process can always see the newly entered pack level records.	Consumer - Hinckley (BHS)	EDI - Outbound	ER71-13
268853	DHL/EXEL	CIM reports no dims are being received - Ensure weight fields are not zero in CC01 segment of CIPD file.	Consumer - Hinckley (BHS)	Operational Management	ER71-16

Log Number	Client Ref	Issue Raised and Test Objective	Site	Functional Area	ER Number
268821	Westex	MOVEMENT ISSUE - Ensure that a user can do a stock movement to move the free qty of a pallet that contains allocated or committed stock.	Bliss		ER71-17
268817	EARS00027487323	Cannot Confirm Route Load - Fix applied to WHS1714 Pick list confirmation to correct issue with Oracle error 6502 when finding orders for a route load. Error appears when press Find orders button and number of orders associated with the route load is around 90+	Industrial - Leigh	Orders - Pick conf	N/a
268868	EARS00027499321	Despatch Message error - Fix to prevent Oracle Error when despatching by delivery number.	Ireland - Oak Rd (BAT)	Orders - Desp conf	N/a
268869	DHL/EXEL	Non Palletised Reposition - Ensuring that the changes to the creation and updating on the stock anchor points for non-palletised bulk locations is changed to also work for non-palletised pick locations as well.	Consumer - Hinckley (BHS)	N/a	ER71-18
268840	NFT F0008189	WMS report query - Catch weight is reported rather than using the stock weight multiplied by the on hand qty.	Alfreton	N/a	N/a
268925	EARS00027511231	Auto-Generated Replen Report is blank - New version of stock movement report WHR1700_4.rdf which supports the new stock movements processing.	Consumer - Corby	Stock - Movements	ER71-19
