Log Number	Client Ref	Issue Raised and Test Objective	Site	Functional Area	ER Number
268101	NFT F0008019	Stock Report Incorrect - The Insufficient stock report did not show the correct held stock total from the stock warehouse record. This originated from the the GRN receipt confirmation not accumulating the total held stock total as incoming pallets were confirmed. The held stock total was being set to the quantity confirmed rather than increased as new stock was recevied. The held total is now accumulated as each GRN is confirmed and put on hold awaiting put-away.	u/a	Stock - Reports	N/a
268636	Westex	Display Personnal Message on Desp Note - Add the user's personal message onto the BLC specific despatch note. The data will be retrieved from the 'msg' tag in the 'HeaderMsg' segment of the inbound file. The data will be concatenated into a single field on the report to allow the report to word wrap the text.	Bliss	u/a	ER72-01
268888	EARS00027504150	Stock location enquiry crashes system - No reply received regarding the exact nature of the problem. Two small amendments (relating to the screen layout only) have been made and will be included in the next full patch to be built.	Consumer - Hinckley (BHS)	Warehs - Enquiries	N/a
269011	EARS00027527518	Returns and amendments screen slow - Improve data retrieval when querying by customer code.	HM Prisons	Order Processing	N/a
269065	Internal	Remove case insensitive queries - Changes to various system screens to improve speed when finding records. Issue caused by a case insenstive query on key items - all key index items will be in upper case so this is not needed.	u/a	u/a	N/a
269141	EARS00027558403	Cannot confirm movements - Add a check back to the record held on the database before confirming the move. This is to prevent a problem whereby two users found the record, one confirmed it, then after the record was released, the second one also tried to confirm it. The screen now gives an error to say that the record has already been confirmed, please re-find the record.	Consumer - Corby	Stock - Movements	N/a
269193	EARS00027574977	Oracle reports for ITG running slow - Amend ITG invoicing to allow it to run quicker.	Ireland - Oak Rd (ITG)	Orders - Reports	ER72-02
269270	Westex	Stock despatched is less than ordered - Correct display of ordered qty on B2B specific despatch note if a stock code appears on two lines on an order."	Bliss	Orders - Desp note	N/a
269391	RJ-7VZALK	Flag on Max product limits - Two rules - one for owner and one for warehouse - created to allow users to enter double the usual max qty of a product in the NOMS order entry screen. The owner rule takes precedence over the warehouse rule. The original owner rule OEMQ will allow the limit to be completely turned off if required. This only affects SOS7000 order entry.	HM Prisons	Orders - Entry	ER72-03

269450	EARS00027628232	Kitting allocation - case split wrong - Fixed allocation to write journal records and update stock warehouse correctly when splitting multiple cases.	HM Prisons	Orders - Allocation	N/a
269596	Internal	Shelf Life Enquiry - New enquiry screen - 3 tab pages showing (a) Top 50 ordered products for a range of dates (b) Top 50 most used pick faces for a range of dates (c) Remaining shelf life for all products in the warehouse for the current owner.	u/a	Warehs - Enquiries	N/a
269641	EARS00027667706	No error for invalid stock code - Message will display if a SW record does not exist for any of stock codes on the receipt. Message will display if confirmation of receipt is not successful.	HM Prisons	GRN - Confirm	ER72-06
269782	EARS00027690695	It is not possible to copy ORS reports - Can copy reports for all users (usernames over 10 chars).	HM Prisons	Warehs - reports	ER72-04
269850	RJ-7WBJ6D"	Stock Movement Enquiry Screen - Filtered - Amendment to STS3000 Stock Movement Enquiry Screen to add a warehouse parameter. The user will have the option to filter stock movements for a specific warehouse or leave it blank to show data for all warehouses as it does now. The parameter will default to the users current warehouse but will allow them to select one of the warehouses that they have access to. A list of values is available against the field.	HM Prisons	u/a	N/a
269981	EARS00027736364	FTP folder is not clearing out - Amendments around the despatch processing (receipt of CITD message, order despatch, DESP message generation) to improve performance - should reduce the amount of time taken to process each inbound CIM message.	Consumer - Hinckley (BHS)	EDI	ER72-08
270166	EARS00027776719	Order issue - serial nums - Incorrect serial numbers no longer prevent the correct serial numbers being saved.	Healthcare - Clinical Trials	Orders - Cancellation	N/a
270188	EARS00027781316	Serial number entry issues - I have amended the screen so that once an incorrect number has been entered, the remaining numbers can be successfully confirmed.	Healthcare - Clinical Trials	Orders - Entry	N/a
270197	Westex	INCORRECT ADDRESS DETAILS - Amend handling of SYSPRO order handling to check for a N2 optional address segment. If it exists, write data away to the order address. Re-format the rest of the orders address data accordingly. Also amend the way the N4 address segment works, so it handles correctly records which only have 1 data segment, so it shows ie IRELAND and not N4*IRELAND.	Bliss	u/a	ER72-10
270225	Westex	INVALID LOCATION GENERATING WITH STOCK - Ensure that orders raised by EDI have the marshalling location properly correctly.	Aspect	N/a	ER72-09
270391	EARS00027574977	Invoice Report speed issue - Rewritten for performance improvements.	u/a	Warehs - reports	ER72-11
270548	DHL/EXEL	Release hold on Empty Location - Ensure that the RF putaway process does not stop a user putting away stock into an empty location, because a different SKU has it set as an anchor point, when the SKUs putaway algorithm is set to U and MAFL,	Consumer - Hinckley (BHS)	Warehs - Free locations	ER72-12
