- **New Registry Settings (P077)**

Log Number	Client Ref	Issue Raised and Test Objective	Site	Functional Area	ER Number
272338	Internal	Update of screen to latest format - Changes to the layout of the Hold/Release form	u/a	u/a	u/a
273389	EARS00028406357	Route / load set as cancelled - Fix to pick conf to prevent loads being cancelled incorrectly.	Consumer - HM Prisons	Order Processing	ER76-01
273230	Internal	WHS0012 minor update's - Amend the form so that it no longer requests ?do you want to save your changes? even if the user has simply viewed the data. The program must be released after version 4.2 (log 270819 / NH-7X9CQX), as this version of the form contains dictionary changes.	u/a	u/a	ER76-04
270819	NH-7X9CQX	Combined Pick Note, Despatch Note & Ship - Create combined pick, despatch and shipping labels unctionality The Order Despatch Flag, which is labelled 'Print DNote At' in Owner Maintenance screen, need to be set to 6, labelled 'At Alloc/Pick when fully alloc' Against the owner ware parameters maintenance screen, the ?Consol Print Control? flag should be set to N.	Healthcare - PIPP Contract	u/a	ER76-02 & 76-03
273455	DHL/EXEL	Load header staying locked - Stop load header staying locked after exiting screen.	Consumer - HM Prisons Order Processing	u/a	ER76-05
273480	DHL/EXEL	Load header staying locked - Stop load header staying locked when exiting the pick wave screen.	Consumer - HM Prisons	Order Processing	u/a
273406	EARS00028411511	Order file has not loaded - Amend the inbound sales order EDI process to correctly handle file locking issues, by rolling back the data, so the user can re-load the data. Ensuring the EDI upload status correctly reflects this. Also differentiating the difference between critical errors caused during the upload process and the data is written to the file.	Consumer - BHS Hamms Hall/Ath	EDI - Inbound	ER76-27
273247	Westex	Stock level monitoring - 2 new csv reports created 'Short Despatch Order Report' - This shows what order have been short despatched over a time scale (default 7 days) 'Short Despatch In Marshalling' - This shows any pallet in marshalling which is not awaiting despatch, and tries to find orders which it was short despatched against.	Aspect	u/a	ER76-06
273312	DHL/EXEL	Serial number work - Amendments to Serial number processing in WMS as a result of investigation and corrections arising from calls raised. Validation of serial number entry and generation has been corrected to prevent duplication and the updating of serial status has been corrected in allocation and despatch. Also includes amendments in the stock/pallet move processing for products with serial numbers. Functionality identified by the user that was missing from the new stock movement screen WHS0700 has been added to allow consolidation of stock as part of a stock move.	Healthcare - Clinical Trials	Stock - Serial No	ER76-08

Log Number	Client Ref	Issue Raised and Test Objective	Site	Functional Area	ER Number
270010	NH-7X9CG3	Order Management Module - PIPP Order Management	Healthcare - PIPP Contract	u/a	ER76-07
272779	EARS00028292262	Pick Conf route validation is slow - The route field no longer validates against unpicked orders, this validation is only done against the load. This means that any valid route can be entered whether or not it has loads on it needing pick confirmation. Note that the load field will still only display those loads requiring pick confirmation. This is for speed improvements since some systems have very many orders on a single route.	Consumer - HM Prisons	Orders - Pick conf	u/a
273731	EARS00028465618	Slow Response in Pre-Spends Report - Validation on the route is now done purely against the routes table. There is no validation against matching orders when the route is entered.	Consumer - HM Prisons Orders	Reports	u/a
273135	EARS00028361065	Pick tasks not being sent to WCS - All items that are pick listed are sent correctly to the WCS for picking via RF.	Consumer - BHS Hamms Hall/Ath	Orders - Pack list	u/a
273732	EARS00028465462	Slow response in Despatch manifest Scrn - The routes LOV only validates that the route is valid, it no longer checks that there are orders against the route.	Consumer - HM Prisons	Orders - Reports	u/a
273733	EARS00028465634	Slow response in despatch spends report - Route lookup only checks that the route is valid, it does not look to see if there are valid orders, this check is left to the load number lov. This is for speed.	Consumer - HM Prisons	Orders - Reports	u/a
273881	NH-7X9CG3	Correct Role Issue - Fix Permissions to allow non-Aptean users to create anticipated and warehouse orders.	Healthcare - PIPP Contract	u/a	ER76-09
273791	Westex	Stock Shorting - If the user uses the RF Split Pallet functionality and 2 pallets exist in the same location with the same SKU and rotation no, and the lower pallet ID of the 2 does not have sufficient stock on hand, and the user is picking off the other pallet, ensure the system accurately reflects this fact, and does not give an error saying insufficient stock is available.	Aspect	RDT - Pick Conf	u/a
272780	EARS00028292514	WHS1910 - Despatch Confirmation - The screen has been amended to reduce the number of error messages displayed if an invalid route has been entered. The LOV code has in places also been modified to run faster.	Consumer - HM Prisons	Orders - Desp conf	ER76-36
272926	EARS00028322692	Adjustments not prompting for audit text - Screen has been amended so if one pallet record exists for a stock code, then the line will auto-save when all details are entered. This forces the display of the audit text box.	Consumer - HM Prisons	Stock - Adjustments	u/a
273841	INTERNAL	Amend pallet types screen - Layout and navigation changes to screen to make it easier to use.	u/a	u/a	u/a
274140	EARS00028538188	Cannot create warehouse reason codes - Screen amended to consider warehouse code in validation so users are linked to a reason code per owner and per warehouse.	Healthcare - Clinical Trials	Warehs - Reason Code	ER76-10
