1 WHS0083 Restricted Reason Code Maintenance

Hold/Release reason codes can be restricted so that only certain users can apply them. To apply restrictions navigate to WHS0083 (Maintenance WMS Maint Restricted User Maint)

The screen will load in Query Mode. Locate the record you wish to change and Execute the query. Alternatively, to add a new reason code restriction use the Exit Door to switch from Query Mode to Add Mode. Then enter the reason code you wish to restrict and the names of the users who have access to use the reason code. Press Save to apply the change.

User	Name
DAVE9	David Number Nine
