Enter a date on the *Main* tab, and the screen will show you the bays and slots available.

The slots are colour codes to show whether they are in use:

- Red - in use, incomplete
- Grey - available

Click on a slot, and you will be allowed to enter or amend the diary entry on the *Details* tab.

FRM-40350: Query caused no records to be retrieved.

Record: 1/1

You can enter:

- Booking ref
- Supplier - a lookup is provided
- Carrier - a lookup is provided
- Time Req'd (Hours) - the time required, which will default to 1 hour.
- Load information

You can then specify the ASNs or PO numbers being delivered.

Record: 1/1 <OSC>

The ASN must exist as an advice note number or PO number within the system as a preadvice, entered through the Preadvice screen [WHS0110](#). This will be validated and the number of pallets will default to the total number of pallets on the advice. This may be changed to signify a partial delivery.
