# 1 WHS1535 Out of Date Stock Report

This is the Out of Date Stock Report (WHS1535) screen.

The screenshot shows the 'Out of Date Stock Report' window in CALIDUS WMS v810.46. The window has a menu bar (Action, Edit, Query, Block, Record, Field, Window, Help) and a toolbar with icons for file operations and navigation. The main area displays the report title 'Out of Date Stock Report' and the following information: Owner: POD, Warehouse: DE2, 17-JUL-2025, and WHS1535 v4.10. Below this, there are input fields for 'Owner: POD' (with a dropdown showing '001' and 'Ellis of Richmond') and 'Date: 17-JUL-2025'. A 'Report' button is located below the date field. The status bar at the bottom indicates 'Record: 1/1'.

## Generating an Out of Date Stock Report:

The screen displays the following input fields:

- *Owner*: An input field for entering the owner code. When a value is entered, the owner name will be displayed next to it. An LOV is provided.
- *Date*: An input field for entering the date.

There is also a button:

- **Report**

When details are entered, click the **Report** button, which will start Out of Date Stock Report generation. If this is a report, this will ask you how you would like to print the report through the standard screen. More details on this process can be found in the guide *Printing From the WMS*.
