This is the Stock Balances Report (WHS1650) screen.

Generating a Stock Balances Report:

The screen displays the following input fields:

- **Format:** A dropdown list to select the report format.
- **Summary/Detail:** A radio button group with options *Detail* and *Summary* to determine the level of detail in the report.
- **Warehouse:** Radio buttons *Yes* and *No*. If *Yes* is selected, "From" and "To" input fields become available to specify a range of warehouses. An LOV is provided for the "From" and "To" fields.
- **Owner:** Radio buttons *Yes* and *No*. If *Yes* is selected, "From" and "To" input fields become available to specify a range of owner codes. An LOV is provided for the "From" and "To" fields.
- **Stock Code:** Radio buttons *Yes* and *No*. If *Yes* is selected, "From" and "To" input fields become available to specify a range of stock codes. An LOV is provided for the "From" and "To" fields.
- **Excl. Zero Quantities:** A radio button group with options *Yes* and *No* to include or exclude zero quantity stock.
- **Record In:** A radio button group with options *Code* and *Description* to determine how records are identified.

There is also a button:

- **Report**

When details are entered, click the **Report** button, which will start Stock Balances Report generation. If this is a report, this will ask you how you would like to print the report through the standard screen. More details on this process can be found in the guide [Printing From the WMS](#).
