This is the GRNs Advised But Not Received Report (WHS1967) screen.

## Generating a GRNs Advised But Not Received Report:

The screen displays the following input field:

- **Receipt Type:** An input field for entering the receipt type. An LOV is provided. A "Receipt Type Lookup" window appears displaying *Receipt Type* options: *Standard Receipt of Product* and *Standard Return of Product*.

There is also a button:

- **Report**

When details are entered, click the **Report** button, which will start GRNs Advised But Not Received Report generation. If this is a report, this will ask you how you would like to print the report through the standard screen. More details on this process can be found in the guide [Printing From the WMS](#).
