1 WHS2030 Stock Enquiry Report

This is the *Stock Enquiry Report* screen (*WHS2030*).

1.1 Parameters Tab

The following fields document the report scheduling and parameter options:

Field Name	Description
Schedule Type	Radio buttons to select whether to run the report *Now*, *Schedule (New)*, or *Schedule (Edit)*.
ID	A unique identifier for a scheduled job.
Database job id	The corresponding database job identifier.
Report Detail Level	Radio buttons to select the output format: *Detail* or *Summary*.
Warehouse	The unique identifier for the warehouse location being queried.
Location type	A dropdown selection for the type of location to include in the report (e.g., *ALL*).
Sort Order	Radio buttons to select the primary sort order: *SKU*, *Warehouse*, or *Location Type*.
Email Addresses	Text area to input the email addresses that will receive the report.
Scheduled Days	Checkboxes to select the days of the week for the scheduled run (Sun, Mon, Tue, Wed, Thu, Fri, Sat).
Scheduled Time	The specific time of day the scheduled report should run.
Report Description	A descriptive text for the report.
Return address	The email return address for the report.
Email Subject	The subject line for the report email.

Action Buttons:

- **Run**: Executes the generation of the Stock Enquiry Report based on the selected parameters.

1.1.1 Log Tab

This tab displays a historical log of emails sent for the report:

Field Name	Description

Field Name	*Description*
Date/Time	The specific date and time the email was sent.
Status/Recipient	The status of the email and/or the recipient's email address.
