WHS2057 Auto Stock Holds

Contents

1 WHS2057 Auto Stock Holds

This is the Auto Stock Holds screen.
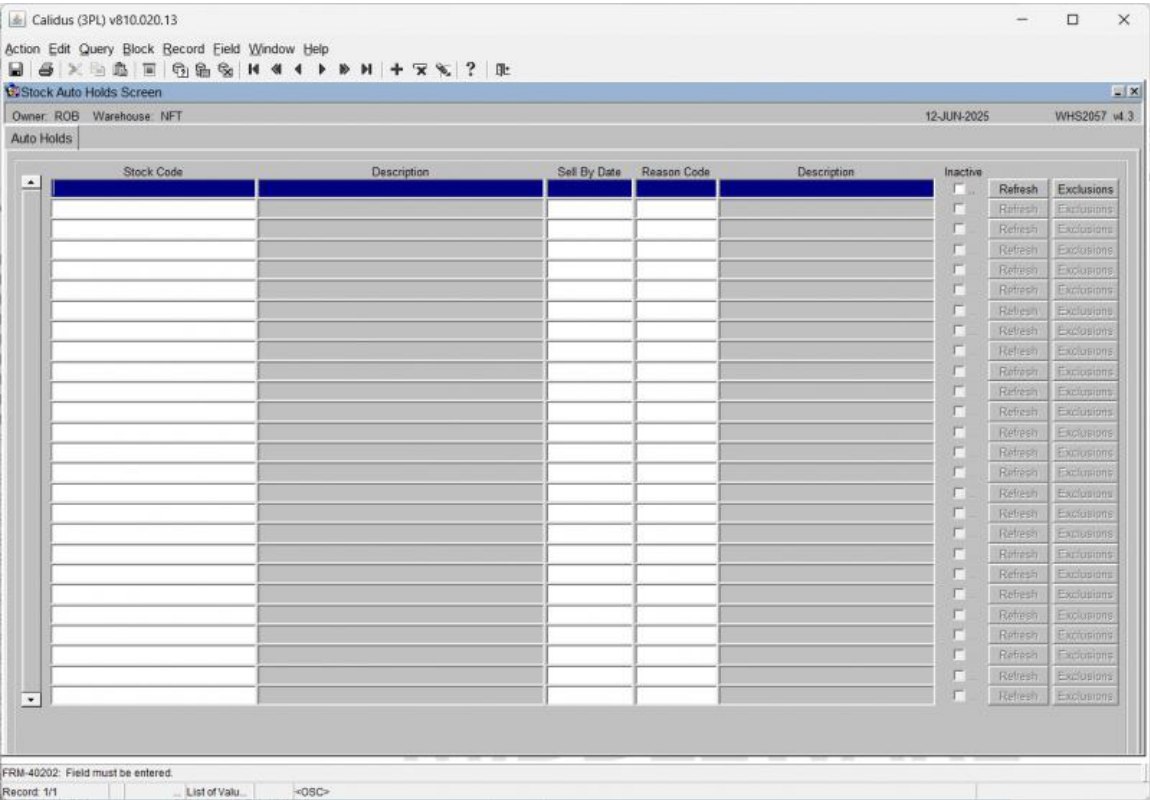

You can enter automatic holds associated to:

- Stock Code
- Sell-by Date

You can then enter a reason code that the stock will be held under.

You can set whether the auto-hold is Inactive with the provided check-box.

You can set exclusions against the auto-hold using the **Exclusions** button provided.

Ready for **What's Next, Now**™

Any stock matching the criteria will be automatically held when received. You may also click the **Refresh** button to apply the hold to any stock currently in the warehouse. You will be prompted with a confirmation request before this is applied.
