1 WHS3070 Predicted Short Stock Report

This is the Predicted Short Stock Report (WHS3070) screen.

Generating a Predicted Short Stock Report:

The screen displays the following input fields:

- *Owner Code*: An input field for entering the owner code. An LOV is provided.
- *Order Num From/To*: Input fields for entering a range of order numbers. An LOV is provided.
- *Delivery Date From/To*: Input fields for entering a range of delivery dates.
- *Pick By Date From/To*: Input fields for entering a range of pick by dates.
- *Customer From/To*: Input fields for entering a range of customers. An LOV is provided.
- *Customer Class*: An input field for entering the customer class. An LOV is provided.

None of the fields have a yellow background, indicating none are required.

There is also a button:

- **Run Report**

When details are entered, click the **Run Report** button, which will start Predicted Short Stock Report generation. If this is a report, this will ask you how you would like to print the report through the standard screen. More details on this process can be found in the guide [Printing From the WMS](#).
