Mainly used for RF enabled warehouses, this screen determines what kind of truck can be used around the warehouse. The truck types entered here can then either be added into location types maintenance, or entered onto a handheld RDT when processing.

Code	Description	Intrinsically Safe
AL	All Locations	No
CB	Counter Balance	No
NA	Narrow Aisle	No
PT	Pump truck	No
RT	Reach Truck	No
SE	Truck Type SE	No
T1	Test Truck 1	No
T2	Test Truck 2	No
T3	Test Truck 3	No
T4	SM Test Truck 4	No
T5	SM Test Truck 5	No
T6	SM Test Truck 6	No
XX	Xtra big truck	No

## Note:

- The *Truck Type* entered must be 2 characters long
- The **Send** button will refresh the WCS with all truck types and their description.
