# WHS8231 Aisle Status Maintenance

Contents

1 WHS8231 Aisle Status Maintenance

In order to make the aisle available to the system, all aisle codes to be used must be set to available. Note, the default on entry within the screen is No.

Used to indicate if a given aisle is actually currently in use or is available. Used in the event of physical access problems etc. The screen is used with the RF system.

Code	Description	Available?	PD In Location	Max Pallets	Actual Pallets
0	Aisle 0	Yes			
01	Aisle 01	Yes			
02	Aisle 02	No			
03	Aisle 03	No			
04	Aisle 04	No			
05	Aisle 05	No			
06	Aisle 06	No			
07	Aisle 07	No			
0A	Aisle 0A	No			
0B	Aisle 0B	No			
1	Aisle 1	Yes			
10	Aisle 10	No			
11	Aisle 11	Yes			
12	Aisle 12	Yes			
13	Aisle 13	Yes			

Aisle Status Maintenance — Owner: ROB Warehouse: NFT   10-JUN-2025   WHS8231 v4.4

Note:

- The system will automatically default in all aisle codes previously set up. The user then simply has to change the Available Flag from N to Y for each one.
