# WHSORA025 Pick List Reprint

Contents

1 WHSORA025 Pick List Reprint

This screen is used to re-generate a pick list again if required. This is only normally used if an error occurred at first print.

💡 **Note: The order has to be status ?5? for this to work.**

Field Information:

- *Route/Load or Order Number:* Select whether the user is to produce pick list by order number sequence or route/load number. The selection criteria here will determine whether the Route/Load From or Order Number From/To fields are enabled .
- *Order Owner*: The owner code of the orders to be printed. Will default to current owner .
- *Pick Page From/To*: Enables the user to select specific pages within a pick list.
- *Picker*: For RF purposes, enables the user to enter a valid employee code in order to send the order to a specific picker via RF.
- *Include Zero Pick Qtys Y/N?:* Indicate if the pick list should contains lines that could not be allocated .
- *Pick Format*: A pre defined pick list format hard coded. Will default to the pick format set up in Owner Maintenance .
- *Print Pallet Labels Y/N?*: Specifies whether pick labels are to be produced. Will default to the value set in owner maintenance, format tab.
- *Label Format*: Select a format for the pick labels if required. Must be a pre defined hard coded label format.
- *RDT priority*: used for RF purposes. Determines what the priority of this pick is in relation to others.

Buttons:

- **Reprint Labels** - this reprints the labels associated to the selected orders or route/load, in the label format selected.
- **Run Report** - this re-runs the pick list in the format selected.
- **Options** - this allows you to specify some additional options for the standard format.

Additional options:
